

Application for Simulated Partition of Employment Earnings in the Event of a Separation Québec Pension Plan

Form to be completed by an attorney, a notary or one of the spouses

The spouse applying for the simulated partition of employment earnings will receive, for the period of the union, a table showing the employment earnings recorded under the names of both spouses under the Québec Pension Plan and, if applicable, the Canada Pension Plan. Each of the former spouses must file the application on his or her own to receive the result of the simulation.

The spouse who would like to obtain an estimate of the amount of his or her own pension before and after partition needs the written authorization of the spouse who is not applying for a simulation, or the written authorization of one of the spouse's representatives, or the Court registration number. However, if the person would also like to obtain an estimate of the amount of his or her spouse's pension, the spouse's consent is required. The Court registration number alone is not sufficient in this regard.

The simulated partition of employment earnings provides information and helps to make a decision; it does not initiate the official procedure of partition.

The Application for Simulated Partition of Employment Earnings in the Event of a Separation can be filed by either spouse, an attorney or a notary.
